RONA CUT GLASS – DEFINED ELEGANCE

RONA factory is pleased to introduce assortment of new machine made cuttings. The idea is to present a wide range of cuts, combining both the modern technology of RONA blanks, along with the superior new cutting facility. The cuts can be either polished and/or grey cuts.

RONA tries to keep the shapes and sizes to accommodate the needs of the customers, but at the same time seeks for the neatly selected range. The presented shapes are made with the thicker body blanks thus to allow the cutting to be as deep as technically possible in order to fully enhance its brilliance.
